

## **FROM SAIL TO STEAM RECOLLECTIONS OF NAVAL LIFE**

"That's kind of you," Panglo stammered, "but I have little time for reading, very little time." "Well, he was an insurance agent, and numbers are important in that line of work. And he was a good investor, too. Not the whiz you are with numbers, but I'm sure you got some of your talent from him..In the kitchen, he sat her in a chair and let her slump forward over the breakfast table. With her arms folded, with her head on her arms and turned to one side, she appeared to be resting..Barty's reading and writing skills appeared to be related to his talent for math, as well. To him, language was first phonics, a sort of music that symbolized objects and ideas, and this music was then translated into written "syllables using the alphabet-which he saw as a system of math employing twenty-six digits instead of ten..Now, on his kitchenette table, two nights after Maria's reading, Jacob finished integrating the four decks as he had done Friday in the dining room of the main house. His work completed, he sat for a while, staring at the stack of cards, hesitant to proceed..sky grew sullen in the early twilight, and the city once more arrayed itself in the red gesso and gold leaf that had indirectly illuminated Celestina's apartment ceiling the previous night..Dr. Leland Daines, Celestina's internist, arrived directly from dinner at the Ritz-Carlton. Although Dairies had receding white hair and a seamed face, time had been kind enough to make him look not so much old as dignified. Long in practice, he was nevertheless free of arrogance, soft-spoken and with a bottomless supply of patience..Junior put the money on the desk. "Then get into the records of Family Services."..He decided to use the tool just three times on each deadbolt before trying the door. The less noise the better. Maybe luck would be with him..Renee Vivi spoke with a silken southern accent. Vivacious without being cloyingly coquettish, well-educated and well-read but never pretentious, direct in her conversation without seeming either bold or opinionated, she was charming company..More often than not, in a social situation, regardless of its nature, there came a time when Edom had to bolt, and here now was the time, not because he floundered at a loss for words, not because he became panicked that he would say the wrong thing or would knock over his coffee cup, or would in some way prove himself foolish or as clumsy as a clown in full pratfall, but in this instance because he didn't want to bring his tears into Agnes's day. Recently she'd had too many tears in her life, and though these were not tears of anguish, though they were tears of love, he didn't want to burden her with them..In the first two weeks, when she wasn't on pie caravans, Agnes received guests in numbers that taxed her. But there were so many people she wanted to see one last time. She fought hard, giving the disease all the what-for that she could, and she held fast to hope, but she received the visitors nonetheless, just in case..Junior was aware that all the cops were watching him as he stared down at the body, and he frantically tried to think what an innocent husband would be likely to do or say, but his imagination failed him. His thoughts could not be organized..Not a door opened in the narrow street. Nobody looked out to see what the noise was. Not till long after the men were gone did some neighbors creep out to comfort Otter's people as best they could. "Oh, it's a curse, a curse, this wizardry!" they said..Eleven days had passed since Wally stopped three bullets. He still had a little residual weakness in his arms, grew tired more easily than before he'd wound up on the wrong end of a pistol, complained of stiffness in his muscles, and used a cane to keep his full weight off his wounded leg. The rest of the medical care he required, as well as physical rehabilitation, could be had in Bright Beach as well as in San Francisco. By March, he should be back to normal, assuming that the definition of normal included massive scars and an internal hollow space where once his spleen had been..Like all women past puberty and this side of the grave, she was attracted to him. She never told him as much, not in words, but he detected this attraction in the way she looked at him, in the tone that she used when she spoke his name. Throughout three weeks of therapy, Seraphim revealed countless small but significant proofs of her desire..Had he ever thought he could get away with this? He must have been delusional, temporarily mad..Tom Vanadium, on the other hand, was certain that Cain, having prepared for the possibility that something would go wrong during his assault on Celestina, wouldn't be easy to locate or to apprehend. In Vanadium's view, the maniac either had a bolt-hole waiting in the city or was already out of the SFPD's jurisdiction..He had come to believe that every well-rounded, self-improved person ought to have a craft at which he excelled, and needlepoint appealed to him more than either pottery-making or decoupage. For pottery, he would require a potter's wheel and a cumbersome kiln; and decoupage was too messy, with all the glue and lacquer. By December, he began his first project: a small pillowcase featuring a geometric border surrounding a quote from Caesar Zedd, "Humility is for losers."..Ten months later, Simon called again, also regarding Cain, but this time the attorney was the client, and Cain was the target. What Simon wanted Nolly to do was strange, to say the least, and it could be construed as harassment, but none of it was exactly illegal. And for two years, beginning with the quarter in the cheeseburger, ending with the coin-spitting machines, all of it had been great fun..Because of his blindness and his intellectual gifts, Barty was home schooled; besides, no teacher was a match for his autodidactic skills, nor could anyone possibly inspire in him a greater thirst for knowledge than the one with which he had been born. Angel went to this same informal classroom, and her sole fellow student was also her teacher. They aced the periodic equivalency tests that the law required. Their constant companionship seemed to be all play, yet was filled with constant learning, too..What he saw next in the brochure wasn't the link that he sought, but it alarmed him so much that the three-fold pamphlet rattled in his hands. The reception for Celestina's show had been this evening, had ended more than three hours ago..On the nightstand stood a stainless-steel carafe beaded with condensation. Maria took the cap off the water carafe, and with a longhandled spoon, she scooped out a chip of ice. Cupping her left hand..of Zedd constituted the most thoughtful, most rewarding, most reliable guide to life to be found anywhere. When Junior was Confused or troubled, he turned to Caesar Zedd and never failed to find enlightenment, guidance. When he was happy, he found in Zedd the welcome reassurance that it was all right to be successful and to

love oneself. Taking no chances, Junior swung the candlestick again, bending down as he did so. The second impact was not as solid as the first, a glancing blow, but effective. Finally Angel dropped and slithered, vanishing under the overhanging bedclothes with a final flurry of yellow socks. Not incidentally, the project served as a vehicle by which some older citizens, in financial crisis, could receive money in a way that spared their dignity, gave them hope, and repaired their damaged self esteem. Agnes asked Obadiah to enrich the project by accepting a one year grant to record the story of his life with the help of the head librarian. Junior reached the window seat and stared down at her. "I don't believe that's true." Looking down at Barty, Agnes saw the ghost of Joey in the baby's face, and although she half believed that her husband would be alive now if he had never tempted fate by putting such a high price on his life, she couldn't find any anger in her heart for him. She must accept this final generosity with grace-if also without enthusiasm. With the second shot, the dead woman tumbled out of her chair, and the chair clattered onto its side. Although the only light on the back porch came from the pale beams that filtered out through the curtains on the kitchen windows, all these faces seemed luminous, almost preternaturally aglow, like the kiln-fired countenances of saints in a dark church, lit solely by the flames of votive candles. The rain-a music of sorts, and the jasmine and incense, and the moment sacred. LATE TUESDAY AFTERNOON in Bright Beach, as a darker blue and iridescent tide rolled across the sky, seagulls rowed toward their safe harbors, and on the land below, shadows that had been upright at work all day now stretched out, recumbent, preparing for the night. Sobbing desperately, he dropped the telephone handset on the secretary, seized the dishtowel. He wrapped the cloth tightly around the shattered stump, applying pressure to diminish the bleeding. More than twice, worried nurses-and even a resident internist braved the tumult to check on Junior's condition. They asked if he really felt up to entertaining visitors, these visitors. Aware of the mortician's new edginess, Jacob was convinced that his initial distrust of Panglo was justified. This twitchy little guy seemed to have something to hide. Jacob didn't have to be a cop to recognize nervousness born of guilt. Although faint and somewhat hollow, the woman's crooning was pure and so on-note that this a cappella rendition fell as pleasantly on the ear as any voice sweetened by an orchestra. Yet the song had a disturbing quality, as well, an eerie note of yearning, longing, a piercing sadness. For want of a better word, her voice was haunting. "Then you have a big advantage, and you'll have to tell us all about yourselves," Agnes said. "I'll get the coffee brewing ... unless you'd like to help." Judging by the sounds Vanadium made, Junior figured that the cop had settled once more into the armchair. Too much, far too much to contend with, and so unfair: finding the Bartholomew needle in the haystack, hives, seizures of vomiting and diarrhea, losing a toe, losing a beloved wife, wandering alone through a cold and hostile world without a heart mate, humiliated by transvestites, tormented by vengeful spirits, too intense to enjoy the benefits of meditation, Zedd dead, the prospect of prison always looming for one reason or another, unable to find peace in either needlework or sex. The wink startled and baffled Edom. Oddly, he thought of the mysterious, disembodied, and eternally unwinking eye in the floating pinnacle of the pyramid that was on the back of any one-dollar bill. Over generous slices of Black Forest cake and coffee, Jacob at first held forth on the explosion of a French freighter, carrying a cargo of ammonium nitrate, at a pier in Texas City, Texas, back in 1947. Five hundred and seventy-six had perished. No matter. He was a future-focused, focused man. The past is for losers. No, wait, humility is for losers. "The past is the teat that feeds those too weak to face the future." Yes, that was the line from Zedd that Junior had stitched on a needlepoint pillow. The hospital was drowned in the bottomless silence that fills places of human habitation only in the few hours before dawn, when the needs and hungers' and fears of one day are forgotten and those of the next are. Regrettably, he had no choice but to conclude that she hadn't made up her mind whether to keep the baby or to seek out an illegal abortion without Junior's approval. She had been thinking about scraping his child out of her womb without even telling him. The two bereaved women huddled at one end of the living room, tearful, touching, talking quietly, wondering together if there was any way that each could help the other to fill this sudden, deep, and terrible hole in their lives. Koko skidded to a halt, perplexed, looked left, looked right, floppy ears lifted slightly to catch any sound of Mistress Mary. By mid-March, he had exhausted the possibilities of Bartholomew as a surname. By the time that he shot himself in September, he had combed through the first quarter million listings in the directory in search of those whose first names were Bartholomew. Sklent came to mind, perhaps because of the strange drawing on the girl's sketch pad. Sklent at that Christmas Eve party, only a few months ago but a lifetime away. The theory of spiritual afterlife without a need for God. Prickly-but spirits. Some hang around, haunting out of sheer mean stubbornness. Some fade away. Others reincarnate. Grace, proving again the aptness of her name, said the one thing most likely, in time, to bring true peace to Celestina. "Remember Bartholomew." If Cain had been attracted to one woman by her looks, surely he would be attracted to the other. And perhaps the sisters shared a quality other than beauty that drew Cain with even greater power. Innocence, perhaps, or goodness: both foods for a demon. He smiled. "Those of us who were priests first--yeah, we're all a broody bunch. Of the others--not many, but probably more than you think." dent? You do believe that? Because I don't see ... I don't know how could work with someone who thought I was capable of . . . ". Angel raised her attention from the salt shaker to Tom's face, studied his scars for a moment, and said, "No." Tom didn't attribute supernatural powers to this killer. Enoch Cain was mortal, not all-seeing and all-knowing. Evil and stupidity often go together, however, and arrogance is the offspring of their marriage, as Tom had earlier told Celestina. An arrogant man, not half as smart as he thinks, with no sense of right and wrong, with no capacity for remorse, can sometimes be so breathtakingly reckless that, ironically, his recklessness becomes his greatest strength. Because he is capable of anything, of taking risks that mere madmen wouldn't consider, his adversaries can never predict his actions, and surprise serves him well. If he also possesses animal cunning, a kind of deep intuitional shrewdness, he can react quickly to the negative consequences of his recklessness and can indeed appear to be more than human. Jacob didn't know how he could ever bear

to look at Agnes when she came home from the hospital. The sorrow in her eyes would kill him as surely as a knife to the heart..Clinging to the desperate hope of an ultimate reunion, he put the gun away, went to the kitchen, and made a grilled-cheese sandwich: cheddar, with dill pickles on the side.. "The girl's baby," said Nolly, "was placed with Catholic Family Services for adoption.".The bright side was easy to see. If Vanadium's reputation among other cops and among prosecutors was that of a paranoid, a pathetic a after phantom perpetrators, his unsupported belief that Naomi.She felt that she had failed her sister. She didn't know what more she could have done, but if she'd been wiser and more insightful and more attentive, surely this terrible loss would not have come to pass..Lientery's work met the criteria of great art, about which Junior had learned in art-appreciation courses. It undermined his sense of reality, left him wary, filled him with angst and with loathing for the human condition, and made him wish he hadn't just eaten dinner..For a while he thought the fear would end only when he perished from it, but eventually it faded, and in its place poured forth self-pity from a bottomless well. Self-pity, of course, is the ideal fuel for anger; which was why, pursuing the Buick through fog, climbing now toward Pacific Heights, Junior was in a murderous rage. By the time he reached Cain's bedroom, Tom Vanadium recognized that the austere decor of the apartment had probably been inspired by the minimalism that the wife killer had noted in the detective's own house in Spruce Hills. This was an uncanny discovery, troubling for reasons that Vanadium couldn't entirely define, but he remained convinced that his perception was correct..Shrieking like carrion-eating birds waiting for their wounded dinner to die, the Hackachaks twice drew stern warnings from nurses. They were told to quiet down and respect the patients in neighboring rooms..While the doctor proceeded with his evening rounds, the nurse remained with Junior until it was clear that the tranquilizer had calmed him and that he was no longer in danger of succumbing to another bout of hemorrhagic vomiting..The need for relief was tremendous, inexpressible, and the urge to urinate was irresistible, and yet he could not let go. For more than eighteen hours, his natural urinary process had been overridden by concentrative meditation. Now the golden vault was locked tight. Every time that he strained for release, a new and more hideous cramp savaged him. He felt as if Lake Mead filled his distended bladder, while Boulder Dam had been erected in his urethra.."I've always wanted to learn the piano myself," Junior claimed, "but I guess you really have to start young.".Professing befuddlement, the galerieur led the way through three rooms to the front windows, gliding across the polished maple floors as though he were on wheels..With Barty's presence, Christmas Eve dinners had become even more agreeable, especially this year when he was almost-three-going-on-twenty. He talked about the visits to friends that he and his mother and Edom had made earlier in the day, about Father Brown, as if that cleric-detective were real, about the puddle-jumping toads that had been singing in the backyard when he and his mother had arrived home from the cemetery, and his chatter was engaging because it was full of a child's charm yet peppered with enough precocious observations to make it of interest to adults..As Celestina settled on the sofa with the phone in her lap, hesitating to dial until she worked up a bit more courage, Angel said to Tom, "So what happened to your face?".Saturday morning, Paul made himself useful by assisting Grace with food preparation and by setting out the plates, flatware, and glasses on the dining-room sideboard..During the first year of her illness, she had been slowly weaned off an iron lung. Until she was seventeen, she required the chest respirator, but gradually gained the strength to breathe unassisted..Edom drove, happy to assist Agnes. He was happier still that he didn't have to make the pie deliveries alone..Summary: Explores further the magical world of Earthsea through five tales of events which occur before or after the time of the original novels, as well as an essay on the people, languages, history and magic of the place..No longer pinned to the bed by an intravenous feed of fluids and medications, provided with pajamas and a thin cotton robe to replace his backless gown, Junior was encouraged to test his legs and get some.She searched the child's unfocused eyes for some sign of the hateful father's wickedness.."Thank you, Dr. Lipscomb. I'll keep track of what you're losing every month, and someday I'll pay it back to you.".He doubted the Studebaker would ever be found, but successful men were, without exception, those who paid attention to detail..Intending to keep the front of the gallery under surveillance from behind the wheel of his Mercedes, Junior checked the time as he walked toward the car. His wrist was bare, his Rolex missing..pride, his one great shining moment but also his sinful pride. Clubbed with the trophy first, fists later. And now, here.. "Most tornadoes stay on the ground twenty miles or less," Edom explained, "but this one kept its funnel to the earth for two hundred nineteen miles! And it was one mile wide. Everything in its path--torn, smashed to bits. Houses, factories, churches, schools--all pulverized. Murphysboro, Illinois, was wiped off the map, erased, hundreds killed in that one town.".The unmatched suite of bedroom furniture, cheap and scarred, might have been purchased at a thrift shop. A double bed and one nightstand. A small dresser..Suddenly remembering the doctor's assurance to Neddy that they would be out of this building by week's end, Celestina said, "But we've nowhere to go.".This philosophy had worked for him previously, but forgetting the aftermath was more difficult when the aftermath was your own poor, torn, severed toe. Your own poor, torn, severed toe was infinitely more difficult to ignore than a busload of dead nuns..And although Simon would have denied it, would even have joked that a conscience was a liability for an attorney, he possessed a moral compass. When he traveled too far along the wrong trail, that magnetized needle in his soul led him back from the land of the lost..Only two explanations occurred to him. First, bureaucracies slavishly follow the rules even when the rules make no sense. Second, the Ugliest Private Detective in the World, Nolly Wulfstan, was an incompetent dunce..She was also a cat lover, working with the Kitten Konservatory to save abandoned felines from death in the city pound. She was the charity's investment manager. Within ten months, Tammy grew twenty thousand in Konservatory funds into a quarter million by speculating in the stock of a South African firm that hit it big selling germ-warfare technology to North Korea, Pakistan, India, and the Republic of Tanzania, whose chief export was sisal..The reception was from six o'clock to eight-thirty. If she were to arrive on time, guardian angels would have to be perched on all

the traffic lights along the way..Even someone of saintly habits and selfless behavior might be a monster in his heart, filled with unspeakable desires, which he might act upon only once or never..Heinlein dreamed of traveling to far worlds. Prior to his death, John Kennedy had promised that men would walk on the moon before the end of the decade. Barty wanted nothing so grand, only to read a few stories, to lose himself in the wonderful private pleasure of books, because soon each story would be a listening experience only, no longer entirely a private journey..With the uniformed troopers was a stocky, late-fortyish, brush-cut man in black slacks and a gray herringbone sports jacket. His face was almost pan flat, his first chin weak, his second chin stronger than the first, and his function unknown to Junior. He would have been the least likely man to be noticed in a ten-thousand-man convention of nonentities, if not for the port-wine birthmark that surrounded his right eye, darkening most of the bridge of his nose, brightening half his forehead, and returning around the eye to stain the upper portion of his cheek..Maybe his pursuit of the matter sprang from mere curiosity, the desire to discover what a child of his might look like; however, if something else lay behind his interest, the motivation would not be benign. Whatever Cain's intentions, he would prove to be at least an annoyance to Celestina and the little girl-and possibly a danger..The poor girl's blood pressure soared in spite of the medication. She suffered a violent seizure..Wally's own house was in the same neighborhood, a block and a half away, a three-story Victorian gem that he entirely occupied..Angel, however, focused on a point in the air above the table. Faint furrows marked her brow for a moment, but then the frown gave way to a smile..Eventually he put the quarter on the nightstand, switched off the lamp, and slipped into bed..Shortly after Agnes turned out the light, she said, "Kiddo, it's been one whole week since you walked where the rain wasn't, and I've been doing a lot of thinking about that." Thunder less distant now. Around her-the crackle of police radios, the clang of tools being readied, the skirl of a stiffening wind. Dizzying, these sounds. She couldn't shut her ears against them, and when she closed her eyes, she felt as though she were spinning..Junior was paying his dinner check and calculating the tip when the pianist launched into "Someone to Watch over Me." Although he'd expected it all evening, he twitched when he recognized the tune..She put down her fork, glanced around the restaurant once more, and leaned across the table. Blushing brighter, she softly sang the opening lines of "Someone to Watch over Me."..Increasingly, he used meditation to relieve stress. He was so skilled at concentrative meditation without seed-blanking his mind-that half an hour of it was as refreshing as a night's sleep.. "I've got one of those faces so ordinary you see it everywhere," said Edom, and decided to tell the story of the Tri-State Tornado of 1925..He knew that he needed to get a grip on himself. But he could not keep his breathing slow and deep, couldn't remember any of Zedd's other foolproof methods of self-control, couldn't recall a single useful meditative technique..Their struggle to put their sorrow into words moved Agnes not because they cared so deeply, but because in the end they were unable to express themselves adequately. Without the relief provided by expression, their anguish grew corrosive. Their lifelong introversion left them without the social skills to unburden themselves or to provide solace to others. Worse, their obsessions with death, in all its many means and mechanisms, had prepared them to expect Barty's cancer, which left them neither shocked nor capable of consolation, but merely resigned. Ultimately, in great frustration, each twin was reduced to fragmented sentences, crippled gestures, quiet tears-and Agnes became the only consoler..Celestina wanted nothing to do with it, was offended by the very sight of it, and she..Paul pulled her back. He gently but firmly thrust her through the open door of the guest room in which he'd spent the night. "Stay here, wait."..With everyone in the diner now aware of Junior, with every head turned toward him and with every wary eye tracking him, he dropped the bun cap and the mustard dispenser on the floor. Barging through the swinging gate at the end of the lunch counter, he entered the narrow work area behind it.. "For the love of God," Junior pleaded, "can't you please give me something for the pain?"..Perhaps she was afflicted with only expressive aphasia, but she must be confused to some degree. The baby, which would be placed for adoption, was not hers to name..Looking up at the mirror above the sink, he saw reflected not the self-improved and fully realized man that he'd worked so hard to become, but the pale, round-eyed little boy who had hidden from his mother when she had been in the deepest and darkest end of one of her cocaine-assisted, amphetamine-spiced mood swings, before she traded cold reality for the warm coziness of the asylum. As if some whirlpool of time was spinning him backward into the hateful past, Junior felt his hard-won defenses being stripped away.. "You'll catch pneumonia," she warned, reaching across the boy to flip the passenger's-side vent toward him.. "Paul told us the night he first came to the parsonage. About Agnes here ... and what had happened to Barty. And all about his late wife, Perri. I feel like I know Bright Beach already."..He briefly closed his hand around the three coins, then with a snap of his wrist, flung them at Nolly, who flinched. But either the coins were never flung or they vanished in midair-and his hand was empty..He must begin by learning as much as possible about ghosts, hauntings, and the vengeance of the dead. During the remainder of 1966, only two apparently paranormal events occurred in Junior Cain's life, the first on Wednesday, October 5.. "He's crafty, you say. Can you use him?"..A sense of fellowship in extraordinary times drew everyone closer, to hug, to touch, to share the wonder. For a long moment, even in the symphony of the storm, in spite of all the plink-tink-hiss-plop-rattle that arose from every rain-beaten work of man and nature, they seemed to stand here in a hush as deep as Tom had ever heard..Sitting on the edge of the bed, Maria lightly salted the runny eggs and spooned them into Agnes's mouth. "Eggs is as chickens does."..Round of face and round of body, Vinnie didn't walk like other men; he seemed to bounce lightly along, as if inflated with a mixture of gases that included enough helium to make him buoyant, though not so much that he was in danger of sailing up and away like a birthday balloon. His smooth cheeks and merry eyes left a boyish impression, but he was a good attorney, and shrewd.. "Indeed, you did," said Magusson. "And I dismissed him as a well intentioned crusader, a holy fool. Looks like you had a better take on him than I did, Mr. Cain."..Junior's breath smoked from him as if he contained a seething fire of his own. He felt a sheen of condensation arise on his face, cold and

invigorating..Immediately at the thought of regurgitation, his abdominal muscles contracted like those of a laboratory frog zapped by an electric current, and he choked on a rising horror..interminably against the ignition plate before, at last, he was able to insert it. "Should be a boy, because then you'll always have a man around the house." Ever since he'd searched Vanadium's house, over fourteen months ago, Junior had enjoyed learning about other people by touring their homes in their absence. Because he was unwilling to risk arrest for breaking and entering, these explorations were rare, other than in the homes of women whom he'd dated long enough to justify swapping keys. Happily, in this golden age of trust and easy relationships, as little as a week of hot sex could lead to key-level commitment..She wouldn't answer him, but he was as convinced by her silence as he would have been by a blurted confession--or by a denial, for that matter. Her wild eyes convinced him, too, and her trembling mouth. Naomi had come back to be with him, and it could be argued that Seraphim had returned in a sense, too, for this girl was the flesh of Seraphim's flesh, born out of her death..Coughing, spitting saliva that was bitter with toxic chemicals, Paul followed her, slapping frantically at his clothes when fire singed his shirt.
