"There's not much worth much in my life," she said, gazing down at the pavement. "All I know how to do is run the farm, and try to stand up and speak truth. But if I thought it was all tricks and lies even on Roke, I'd hate those men for fooling me, fooling us all. It can't be lies. Not all of it. The Archmage did go into the labyrinth among the Hoary Men and come back with the Ring of Peace. He did go into death with the young king, and defeat the spider mage, and come back. We know that on the word of the king himself. Even here, the harpers came to sing that song, and a teller came to tell it." He looked stern. The dragon bore him away. Maybe he hoped she would come, but she did not come, and he soon slept in sheer weariness. He woke in the first, cold light. He sat up and thought. He looked at life in that cold light. It was a different matter from what he had believed it. He went down to the stream in which he had been named. He drank, washed his hands and face, made himself look as decent as he could, and went up through the town to the fine house at the high end, his father's house..you're here, it adds up, you see. It adds up. Well! But listen here, did you just run off from the. He made the sign; she looked at him for a moment. "That's easy," she said softly, and made the sign in return, "but not always safe, among strangers." and lifted her up. She stood submissively. Her head fell back, I saw her teeth glistening; I did not. All the teachers of the art magic on Roke were women. There were no men of power, few men at all, on the island. At that, the witch stopped walking. She hissed like a cat. "Tell anyone?" dragon hunters, but they withdrew from their encroachments on peopled islands and peaceful. Scattered references and tales from Gont and the Reaches, passages of sacred history in the Kargad Lands and of arcane mystery in the Lore of Paln, long ignored by the scholars of Roke, relate that in the earliest days dragons and human beings were all one kind. Eventually these dragon-people separated into two kinds of being, incompatible in their habits and desires. Perhaps a long geographical separation caused a gradual natural divergence, a differentiation of species. The Pelnish Lore and the Kargish legends maintain that the separation was deliberate, made by an agreement known as *verw nadan*, *Vedurnan*, the Division. "They'll use a sorcerer and then ill-mouth him for his usefulness," she said. "It's not just." The sense of huge strength was draining out of her. She turned her head a little and looked down, surprised to see her own brown arm, her rolled-up sleeve, the grass springing cool and green around her sandaled feet. She looked back at the Patterner and he still seemed a fragile being. She pitied and honoured him. She wanted to warn him of the peril he was in. But no words came to her at all. She turned round and went back to the streambank by the little falls. There she sank down on her haunches and hid her face in her arms, shutting him out, shutting the world out. They were both on the hill now. She towered above him impossibly, fire breaking forth between. All any of us knows is how it seems to us. There are names behind names, my Lord.The young man, called Ivory, did not actually have his staff and cloak yet; he explained that he was to be made wizard when he went back to Roke. The Masters had sent him out in the world to gain experience, for all the classes in the School cannot give a man the experience he needs to be a wizard. Birch looked a little dubious at this, and Ivory reassured him that his training on Roke had equipped him with every kind of magic that could be needed in Iria of Westpool on Way. To prove it, he made it seem that a herd of deer ran through the dining hall, followed by a flight of swans, who marvellously soared through the south wall and out through the north wall; and lastly a fountain in a silver basin sprang up in the centre of the table, and when the Master and his family cautiously imitated their wizard and filled their cups from it and tasted it, it was a sweet golden wine. "Wine of the Andrades," said the young man with a modest, complacent smile. By then the wife and daughters were entirely won over. And Birch thought the young man was worth his fee, although his own silent preference was for the dry red Fanian of his own vineyards, which got you drunk if you drank enough, while this yellow stuff was just honeywater..She began to gasp for breath. In the red light that shone now from the crest of the mountain and.In the lore-book from Way, which he brought with him in a spell-sealed box whenever he traveled, were passages concerning the true refiner's fire. Having long studied these, Gelluk knew that once he had enough of the pure metal, the next stage was to refine it yet further into the Body of the Moon. He had understood the disguised language of the book to mean that in order to purify pure quicksilver, the fire must be built not of mere wood but of human corpses. Rereading and pondering the words this night in his room in the barracks, he discerned another possible meaning in them. There was always another meaning in the words of this lore. Perhaps the book was saying that there must be sacrifice not only of base flesh but also of inferior spirit. The great fire in the tower should burn not dead bodies but living ones. Living and conscious. Purity from foulness: bliss from pain. It was all part of the great principle, perfectly clear once seen. He was sure he was right, had at last understood the technique. But he must not hurry, he must be patient, must make certain. He turned to another passage and compared the two, and brooded over the book late into the night. Once for a moment something drew his mind away, some invasion of the outskirts of his awareness; the boy was trying

some trick or other. Gelluk spoke a single word impatiently, and returned to the marvels of the Allking's realm. He never noticed that his prisoner's dreams had escaped him.. "Well, well, well," he said to his wife, frequently, "all rosy again, eh? Got the apple of your." "Does Mother know?" Diamond asked. "It's the curds." Early never disregarded any triviality Hound mentioned, because so many of them had proved not to be trivial. He disliked the old man for that, and because he was unshakable. He never praised Hound, and used him as seldom as possible, but Hound was too useful not to use.. Otter's breath was coming hard. Hound put his hand on Otter's hand for a moment, said, "Don't worry," and got to his feet. "Rest easy," he said.. writers. . . She spat into the fire, wiped her sore mouth with her hand, and stood motionless. She lived with Medra in his small house not far from the Net House, though she spent many days. Hound nodded, as if its location was all that had interested him in Roke.. There's no truth in this tale but one, which is that indeed one of the first Masters of Roke opened and entered a great cavern. "I wasn't well taught, in the City of Havnor," he said. "My teachers told me not to use magic to bad ends, but they lived in fear and had no strength against the strong. They gave me all they had to give, but it was little. It was by mere luck I didn't go wrong. And by Anieb's gift of strength to me. But for her I'd be Gelluk's servant now. Yet she herself was untaught, and so enslaved. If wizardry is ill taught by the best, and used for evil ends by the mighty, how will our strength here ever grow? What will the young dragon feed on?" "Because you don't understand a thing. I don't know how to tell you. It's nothing, you.. water.. "I forget-I always forget," he said, downcast again. "I forget the walls of the prison. He was always a little reluctant to enter the witch's house, a pungent, disorderly place thick with the mysteries of women and witchcraft, very different from his own clean comfortable home, even more different from the cold austerity of the wizard's house. He was very highly strung, and worn out, having walked forty miles in sixteen hours without food.. the island, a sea no boat could venture out in.. She laid her head back and closed her eyes.. "I don't see why," she said. "My mother can cure a fever and ease a childbirth and find a lost ring, maybe that's nothing compared to what the wizards and the dragonlords can do, but it's not nothing, all the same. And she didn't give up anything for it. Having me didn't stop her. She had me so that she could learn how to do it! Just because I learned how to play music from you, did I have to give up saying spells? I can bring a fever down now too.
