I found the Detweiler boy again on the 16th and the 19th. He'd moved into a rooming house near Silver Lake Park on the night of the 13th and moved out again on the 19th. The landlady hadn't refunded his money, but she gave him an alibi for the knifing of an old man in the park on the 16th and the suicide of a girl in the same rooming house on the 19th. He'd been in the pink of health when he moved in, sick on the 16th, healthy the 17th, and sick again the 19th.. She grimaced. "You're new at Partyland, aren't you?" Song, do you have any ideas?" I was sitting there, wondering how in hell I would find him, when the phone rang again. Miss Tremaine stopped typing and lifted the receiver without breaking rhythm. "Mr. Mallory's office," she said crisply, really letting the caller know he'd hooked onto an efficient organization. She put her hand over the mouthpiece and looked at me. "It's for you? an obscene phone call." She didn't bat an eyelash or twitch a muscle.. I will? when the authors keep politics out of their stories. But they never do; in fact, it seems absolutely impossible to write anything without immediately making all sorts of assumptions about what human nature is, what good and bad behavior consists of, what men ought to be, what women ought to be, which states of mind and character are valuable, which are the opposite, and so on. Once fiction gets beyond the level of minimal technical competence, a reviewer must address these judgments of value. Generally, readers don't notice the presence of familiar value judgments in stories, but do notice (and object to) unfamiliar ones as "political." Hence arises the insistence (in itself a very vehement, political judgment) that art and politics have nothing to do with one another, that artists ought to be "above" politics, and that a critic making political comments about fiction is importing something foreign into an essentially neutral area. But if "politics" means the relations of power that obtain between groups of people, and the way these are concretely embodied in personal relations, social institutions, and received ideas (among which is the idea that art ought not to be political), then such neutrality simply doesn't exist Fiction which isn't openly polemical or didactic is nonetheless chock-full of politics. If beauty in fiction bears any relation to truth (as Matthew Arnold thought), then the human (including social and political) truth of a piece of fiction matters, for aesthetic reasons. To apply rigid, stupid, narrow, political standards to fiction is bad because the standards are rigid, stupid, and narrow, not because they are political. For an example of (to my mind) profound, searching, brilliant, political criticism, see Jean-Paul Sartre's Saint Genet.. "Then I love you," and breaks off as the riff ends and she struts back out into the light. I reluctantly touch the console and push the stim to seventy-five. Fifty tracks are in. Common people, even uncommon ones, tend to romanticize reality, often to fantastic extremes, and invariably in these days romanticism acquires religious overtones. In the present instance a perfectly practical undertaking has been interpreted, on the one hand, as an attempt on the part of the King to get high enough above the ground so he can shoot an arrow into Heaven and, on the other hand, as an attempt on the part of the local citizens, especially the rich ones, to provide themselves with an avenue into Heaven. The two interpretations have somehow intermingled and become one. The absurdity of the second is self-evident and unworthy of closer scrutiny. The absurdity of the first is also self-evident, but for the record Td like to cite a few pertinent facts..doors. I slid them open and then shut again. Within a day Barry had relegated all recollections of his criminal behavior of the night before to the depths of bis subconscious and was back at Intensity Five, waiting for whomever to strike up a conversation. The only person who so much as glanced his way, however, was Evelyn, the woman behind the refreshment stand. He went to other speakeasies, but it was always the same story. People avoided him. It was a simplified version of the prototype, with only two controls, one for space, one for time. The range of the device was limited to one thousand miles. Smith had called the device Ozo, perhaps because he thought it sounded vaguely Japanese. The booklet described the device as a distant viewer and gave clear, simple instructions for its use.
