find the center. That's the question to ask. That's what to do..." As he muttered on to himself, "It'll stop by midday," the wizard told the chickens. He fed them and squelched back to the house with three warm eggs. When he was a child he had liked to walk in mud. He remembered enjoying the cool of it rising between his toes. He still like to go barefoot, but no longer enjoyed mud; it was sticky stuff, and he disliked stooping to clean his feet before going into the house. When he'd had a dirt floor it hadn't mattered, but now he had a wooden floor, like a lord or a merchant or an archmage. To keep the cold and damp out of his bones. Not his own notion. Silence had come up from Gont Port, last spring, to lay a floor in the old house. They had had one of their arguments about it. He should have known better, after all this time, than to argue with Silence..hillside, and said he was buried deep under there. Early had no wish to exhume him. So both men and women of great power raised the Great House on Roke. Its cornerstone was set on a hilltop above Thwil Town, near the Grove and looking to the Knoll. Its walls were built not only of stone and wood, but founded deep on magic and made strong with spells.. "Yes -".naming truly, is a great power. At the foot of the hill he came into a lane. It led him through farmlands that looked well kept, though very lonesome. He looked for a lane or path leading to the town, but there never was one that went eastward. Not a soul was in the fields, some of which were newly ploughed. No dog barked as he went by. Only at a crossroads an old donkey grazing a stony pasture came over to the wooden fence and leaned its head out, craving company. Medra stopped to stroke the grey-brown, bony face. A city man and a saltwater man, he knew little of farms and their animals, but he thought the donkey looked at him kindly.. "Of all the innocence," Gift said, hissing the word. "He'll skin you." "How can you deliver babies properly if you haven't had one?" said her mother. Healer. "It was Havnor, his land, where his people were, whether alive or dead he did not know; where Anieb lay in her grave, up there on the mountain. He had never been back, never come this close. It had been how long? Sixteen years, seventeen years. Nobody would know him, nobody would remember the boy Otter, except Otter's mother and father and sister, if they were still alive. And surely there were people of the Hand in the Great Port. Though he had not known of them as a boy, he should know them now." "Otter," said the flat voice. slightest sound reached me, apart from the sharp hiss that announced the passage, in the street, of. learning what we were I treated with indifference. Their dumbfoundedness did not concern me. The wizard started forward all at once, his eyes blazing, and cried, "Open to the King's name! I." "But I will come, master!" he said. And then after a pause, "How soon?" And after a longer pause, he told the air something in a language the ship's captain did not understand, and made a gesture that darkened the air about him for an instant. hid some reluctance or self-doubt. It was the father's idea, not the boy's, that he was gifted. through him, Roke. If Early (of whom he knew only his use-name and reputation) caught him and used. The poem begins with the best known and most cherished love story in the Archipelago, that of. "You're not," Irian said. She thought him between thirty and forty, though it was hard to tell; she kept thinking his hair was white, because it was not black. Enlad. For there had been times when he felt that, as he had summoned her living, so dead she might. "But after the Summoner and I got over the bruises on our souls, as you might say, and the great stupidity of mind that follows such a struggle, we began to think that it wasn't a good thing to have a man of very great power, a mage, wandering about Earthsea not in his right mind, and maybe full of shame and rage and vengefulness. The old wizard stood there. He recollected all he knew of the names of Gont, and after a while he saw where Yaved was. It was the place where the ridges parted, just inland from Gont Port; the hinge of the headlands above the city; the place of the fault. An earthquake centered there could shake the city down, bring avalanche and tidal wave, close the cliffs of the bay together like hands clapping. Dulse shivered, shuddered all over like the water of the pool. north of the Inmost Sea, growing with the years; and the Hound's nose was as keen as ever. gave him to put on, and ate a little food she gave him to eat, and lay down on the pallet she led. "So it was ordained by the first Archmage, centuries ago," said Ivory. "But ... I too have wondered." They went on through darkness, seeing only the track before them in the dim silvery glow of. The Kargish kingship, however, was already being manipulated by the high priests of the Twin Gods. accepting their judgment over his own. "Thorion has been much with the other Masters, and with the. Two days later, when they had reopened the old shaft and begun digging towards the ore, the wizard. South of Andanden lies a land where the ashes fell a hundred feet deep when last the volcano. He sought among memories, among shadows, groping over and over through images: the assault on his home in Havnor; the stone cell, and Hound; the brick cell in the barracks and the spell-bonds there; walking with Licky; sitting with Gelluk; the slaves, the fire, the stone stairs winding up through fumes and smoke to the high room in the tower. He had to regain it all, to go through it all, searching. Over and over he stood in that tower room and looked at the woman, and she looked at him. Over and over he walked through the little valley, through the dry grass, through the wizard's fiery visions, with her. Over and over he saw the wizard fall, saw the earth close. He saw the red ridge of the mountain in the dawn. Anieb died while he held her, her ruined face against his arm. He asked her who she was, and what they had done, and how they had done it, but she could not answer him. "A summoner grows used to bidding spirits and shadows to come at his will and go at his word. Maybe this man began to think, Who's to forbid me to do the same with the living? Why have I the power if I cannot use it? So he began to call the living to him, those at Roke whom he feared, thinking them rivals, those whose power he was jealous of. When they came to him he took their power from them for himself, leaving them silent. They couldn't say what had happened to them, what had become of their power. They didn't know. Veil came from Thwil Town that morning, bringing them a basket of bread, cheese, milk curds, summer fruits. "What have you learned?" she asked Medra in her cool, gentle way, and he answered, "That I'm a fool." feeling horribly like despair. I was certain that the others were experiencing the same things, but. Her apparition stood again just outside the spiderweb cords of the spell, gazing at him, and seeing him, for a soft, bluish, sourceless light filled the room. Her sore, raw lips quivered but she did not speak. Besides myself, there was no one there, though the traffic of black cars was heavier. I did not. Otter sat up at last. He was wet, cold, bewildered. Why was he here? Irian stood silent too, but her hope

sank down, replaced by a sense of shame and utter. The last beans had got big and coarse on the vines; the cabbages were thriving. Three hens came clucking and pecking around the dusty dooryard, a red, a brown, a white; a grey hen was setting her clutch in the henhouse. There were no chicks, and no sign of the cock, the King, Heleth had called him. The king is dead, Ogion thought. Maybe a chick is hatching even now to take his place. He thought he caught a whiff of fox from the little orchard behind the house. Her use-name had been Flag, the blue iris of the springs. Her mother and aunt called her Flag when they spoke of her. were drawn in Berila about twelve hundred years ago.
