"Guys who don't like it but have to do it get mad. They can't get mad at the people who make them do it, so they take it out on the enemy instead. That's what makes them good. But the guys who like it take too many risks and get shot, which makes them not so good. It's logical." Bernard stared at his glass for a few seconds, then shook his head again. "I can't buy it," he said. "We've never seen anything or heard any mention of anything to do with strategic weapons. Where are they supposed to be?" Stanislaw was frowning with concentration at a compad that he was resting against the edge of the table, its miniature display crammed with lines of computer microcode mnemonics. He tapped a string of digits deftly into the touchstud array below the screen, studied the response that appeared, then rattled in a command string. A number appeared low down in a comer. Stanislaw looked up triumphantly at Sirocco. "3.141592653," he announced. "It's pi to ten places." Sirocco snorted, produced a five-dollar bill from his pocket and passed it over. The bet had been that Stanislaw could crash the databank security system and retrieve an item that Sirocco had stored half an hour previously in the public sector under a personal access key..source. Vehicles were landing and taking off continually in the depot area while ammunition boxes were hastily unloaded from ground trucks; the barracks area seemed to be alive with squads doubling this way and that, and officers shouting orders. Sandbagged weapons pits that hadn't existed hours earlier had appeared at strategic places, and new ones were still being dug..Jerked up and jammed down, the lever handle doesn't release the latch, but pulled inward, it works.. "Nobody told me anything."..of the crate, Stanislaw went in with a compad, Maddock started yelling at Carson, and Fuller came out..a gun under them." Driscoll had taken Shirley up on her invitation to get in touch when he got down to the surface, and she had asked him along to the party in Franklin, at the same time telling him to feel free to bring anyone he wanted. So Driscoll had invited Colman, Swley, Maddock, and Stanislaw, who among them had persuaded Sirocco to come too, and Sirocco had suggested bringing some of the girls from the Mayflower II. Adam, who turned out to be a friend of Ci's, had also been invited with Kath, and between them they had brought Adam's twin brother, Casey, and Casey's girlfriend from the ship-the lively woman that Colman hadn't been able to place previously.. "You know what I mean. They weren't doing anything. They'd just had a bit too much to drink. Those two bitches didn't have to do something like that." "I can talk around the pie, even if it isn't polite. I haven't belched all evening, so I ought to have some." "So you aren't just bonus points, Mrs. D. A few seconds later the soldiers all around tensed expectantly..people are homicidal tooth fetishists..camera you left on the front seat." Bernard stopped, frowned, and looked around. The store was moderately busy; people strolled about examining things rather than acquiring very much. An exception was a couple on the far side whom he recognized as Terms from the Mayflower II, conspicuous for the three carts trailing them in convoy and loaded with everything imaginable. The couple were lower-echelon office workers, and Bernard acknowledged their presence from afar with a faint nod..The hunter has a

Unprepared for the girl's admission, Micky stumbled a few words further. " ? because you . . . because." "I don't think it ever did. What I was afraid of was in my own head. None of it was out there." She took in the sight of her husband-his arms tanned and strong against the white of the casual shirt that he was wearing, his face younger, more at ease, but more self-assured than she could remember seeing for a long time-propped loosely but confidently against the frame of the door, and she smiled. "Kalens may have to hide himself away in a shell," she said. "I don't need mine anymore." The relief detachment from B Company marched from the exit of the shuttle to take up positions in from of the ramp, and Sirocco stepped forward to address the advance guard. "Ship detail, atten-shun! Two ranks in marching order, fall . . . in!" The two lines that had been angled away from the lock re-formed into files behind the section leaders. "Sentry details will detach and fall out at stations. By the left... march!" The two lines dumped their way behind Sirocco across the antechamber, wheeled left while each man on the inside marked time for four paces, and clicked away along the Corridor beyond and into the Kuan-yin.. Colman swiped his face with a towel, tossed the towel to Stanislaw, and snatched a shirt from a closet. "Do me a favor and straighten out this mess," he said. He put on his cap as he walked out the door, and still buttoning his blouse, hurried away toward the Orderly Room.. "Was it ever like this? "My father asked me to find you. It's urgent. One of the people the SDs are looking for is at the house. Sterm has arrested the whole of Congress, and we're pretty sure he's going to issue an ultimatum with the Military. If they do the Chironians will take out the whole ship. Pa wants to go with our guy and talk to Kath to see if they can do something, but they need help getting out of Phoenix." The guard had been doubled at the main gate. Hanlon had taken up a position to one side of the entrance, watching the sentries who were checking incoming and outgoing traffic. Jay Fallows was standing just outside, by the wall of the sentry post. Hanlon saw Colman approaching and sauntered across to meet him. "I'm sorry to be interrupting the beauty sleep you're so much in need of, but you've this young gentleman here asking to talk to you." Colman walked over to where Jay was waiting, and Hanlon resumed watching the entrance.. Kath's voice remained low but took on a note of urgency. "Make sure all of them are closed. Do it now." Bernard shook his head, mystified, and started asking questions again. "Just do it," Kath said, cutting him off. "There might not be much time." As a youth he had daydreamed about becoming an entertainer--a singer, or a comic, maybe--but he couldn't sing and he couldn't tell jokes, and somehow after his parents died within two years of each other halfway through the voyage, he had ended up in the Army. So now, though he still couldn't sing a note or tell a joke right, he knew just how to use an M32 to demolish a small building from two thousand yards, could operate a battlefield compack blindfolded, and was an expert at deactivating optically triggered anti-intruder personnel mines.. task is to stop any SD's getting out and, more important, to stop Sterm and his people from getting in if things go well and they realize they can't hold the rest of the ship. "She's a juiceless bitch, isn't she?" Micky said, "Leilani, for God's sake, is your mother always like that? the way I just saw her?" "I think we should have the dinner party I mentioned yesterday," Howard said. "Can you put together an invitation list and send it out? The end of next week might be suitable--say Friday or Saturday." Leilani rose to her knees again. She seized the pole with both hands and rammed it hard under the. Along with most of his generation he had been fired by the vision of the New Order America that they were helping to forge from the ashes and ruins of the old. Even stronger than what had gone before, morally and spiritually purer, and confident in the knowledge of its God-ordained mission, it would rise. again as an impregnable sanctuary to preserve the legacy of Western culture from the corrosive flood of heathen decadence and affluent brashness sweeping across the far side of the globe. So the credo' had run. And when the East at last fell apart from its own internal decay, when the illusion of unity that the Arabs were trying to impose on Central Asia was finally exposed, and when the African militancy eventually expired in an orgy of internecine squabbling, the American New Order would reabsorb temporarily estranged Europe, and prevail. That had been the quest.. Colman was about to make a joke Out of it when he realized they were serious. He knotted his brows and directed an inquiring look at each of them in turn.. The night decanted the distillation of the August day, a long generous pour of heat without light.. "From a white back. But not anymore, I guess, by the look of it." pocket and held it in front where both of them could watch it, while Swley deactivated his own~ A few seconds later, the faces of Wellesley, Borftein, and Lechat appeared on the tiny screen. Colman closed his eyes for a moment and breathed a long, drawn-out sigh of relict "They made it," he whispered. "They're all in there." Wellesley concluded his formal speech and stood looking around the hall for a moment to allow a lighter mood to settle. In the last few days some of the color had returned to his face, his posture had become more upright and at ease, and his frame seemed to have shed a burden of years. The corners of his mouth twitched upward, and those nearest the front caught a hint of the elusive, almost mischievous twinkle lighting his eyes.. Jean shook her head, still refusing to contemplate the

prospect. "But why does it have to be over?" She looked imploringly at Bernard. "We were happy all those years in the ship, weren't we? We had our friends, like Jerry and Eve, we had the children. There was your job. Why should this planet take it all away from us? They don't have the right. We never wanted anything from them. "Well, I'm pleased to hear that at least one Terran thinks so," Bobby said. "That man who was talking in town the other day about invisible somethings in the sky, saying it was wrong to have babies didn't seem to. He said we'd suffer forever after we were dead. How can he know? He's never been dead, It was ridiculous." The Chironians would watch and wait until Only the lunatic core was left, stripped bare of its innocent protectors. Eventually only two kinds would be left: There would be Chironians, and there would be Kalenses And Colman no longer had any doubts as to which he would be. "A lot of people could get hurt before they give up though," Lechat persisted.. Bernard sighed and forced his voice to remain reasonable. "Now, come on ... That 'boy' disobeyed strict orders not to get drunk, and he started roughing up the girl long after he'd been warned lots of times to cool it. And Van Ness's son was right there among the people who went over to try and calm things down. Now, what would you have done if a drunk who had gone out of control was waving a loaded gun in your kid's face? What would anybody have done? ". "Exactly right. But a lot of birds go to roost at night and stay there till morning. Your little orange lady is. "Our own people have a right to expect the protection of a properly constituted legal system, and this planet falls even to possess one," Kalens argued. "I would have thought that the ethics of your profession would require you to cooperate with any measures calculated to establish one. The purpose of this provision is precisely that." "That's all, Fallows," Merrick murmured without looking up. "You are dismissed." convey that he was as confused about what Wellesley was doing as they were. Wellesley looked slowly around the hall one last time. "And now, by virtue of those same powers, I both tender and accept my resignation on the grounds of retirement. It has been an honor and a privilege to serve you all. Thank you." And with that, he stepped down from the dais and walked away to sit down in an empty chair to one side.. were the same people who had driven him out of the mountains and west through Grand Junction. He has. "Bad?" she asked, glancing toward Laura's room.. In this darker night, several structures loom, all humble and yet mysterious. A barn, a stable., PAUL LECHAT, ONE Of the two Congressional members representing the Maryland residential module on the Floor of Representatives, which formed a second house and counterbalanced the Directorate, had a reputation as a moderate on most of the issues debated in the last few years of the voyage. Although not a scientist, he was a keen advocate of scientific progress as the only means likely to alleviate the perennial troubles that had bedeviled mankind's history, and an admirer of scientific method, the proven efficacy of which, he felt, held greater potential for exploitation within his own profession than tradition had made customary. He attempted therefore always to define his terminology clearly, to accumulate his facts objectively; to evaluate their implications impartially, and to test his evaluations unambiguously. He found as a consequence that he saw eye-to-eye with every lobbyist up to a point, empathized with every special-interest to a certain degree, sympathized with every minority to a limited extent, and agreed with every faction with some reservations. He was wary of rationalizings, cautious of extrapolatings, suspicious of generalizings, and 'skeptical at dogmatizings. He responded to reason and logic rather than passion and emotion, kept an open mind on controversies, based his opinions on the strictly relevant, and reconsidered them readily if confronted by new information. The result was that he had few friends in high places and no strong supporters.. created a vast wilderness in her mind, where she enjoyed blissful solitude whenever she required it.. "I agree with and endorse your assessment. Very good, Fallows. Enjoy your leave." Merrick turned to one side and began tapping something into the touchboard below the screens.. Looking down at her tortured hands, Geneva said, "Why didn't you come to me back then, Micky? ". "I'm not suicidal. I'm just a wiseass." remarked with a delighted leer on his face. "Have you thought about it?" Cromwell asked.. "Oh yes, of course." Shirley nodded. "That sounds pretty awful. Still, it's their business." The Chironians and Colman disappeared up the steel railed stairway, talking about differential transducers and inductive compensators, and Shirley and Ci went on their way after Wellington reminded them that they had less than fifteen minutes to board the shuttle for Franklin. Driscoll and Sirocco remained with Wellington in the corridor.. "Yeah, but it was my piece of crap."
