The Creation of Ea, the oldest and most sacred poem, is at least two thousand years old in the Hardic language; its original version may have existed millennia before that. Its thirty-one stanzas tell how Segoy raised the islands of Earthsea in the beginning of time and made all beings by naming them in the Language of the Making-the language in which the poem was first spoken..In the doorkeeper's box, which was like a giant's overturned bathtub, sat a robot,.side, on the sand, a female dancer. Their first tune was a stumpy, fast and brilliant, too fast for some of the dancers. Diamond and his partner stayed in, and people cheered and clapped them when they finished the dance, sweating and panting. "Beer!" Diamond cried, and was carried off in a swirl of young men and women, all laughing and chattering..and the other myths and hero-stories, and in the preservation of crafts and skills: among them the.Then Losen cursed and cried, and his slaves brought him wine, and the mage went out, bowing, and checking as he went to be sure that the spell of paralysis was holding..an illuminated walkway. But when his thoughts settled down and began to run clearer, he knew that he could not defeat a wizard of great craft and power, even if that wizard was mad. If he had any hope it was to play on his madness, and lead the wizard to defeat himself..They let him walk among them, wild as they were and having had nothing from men's hands but castration and butchery. He had a pleasure in their trust in him, a pride in it. He should not, but he did. If he wanted to touch one of the great beasts he had only to stand and speak to it a little while in the language of those who do not speak. "Ulla," he said, naming them. "Ellu. Ellua." They stood, big, indifferent; sometimes one looked at him for a long time. Sometimes one came to him with its easy, loose, majestic tread, and breathed into his open palm. All those that came to him he could cure. He laid his hands on them, on the stiff-haired, hot flanks and neck, and sent the healing into his hands with the words of power spoken over and over. After a while the beast would give a shake, or toss its head a bit, or step on. And he would drop his hands and stand there, drained and blank, for a while. Then there would be another one, big, curious, shyly bold, muddy-coated, with the sickness in it like a prickling, a tingling, a hotness in his hands, a dizziness. "Ellu," he would say, and walk to the beast and lay his hands upon it until they felt cool, as if a mountain stream ran through them..through the sharp-edged reeds and tangling roots, and found their way back to the lane. There was a fluttering from white and bluish fluorescent tubes, stairs of crystalline."He was only a child, and the wizards of that household can't have been wise men, for they used little wisdom or gentleness with him. Maybe they were afraid of him. They bound his hands and gagged his mouth to keep him from making spells. They locked him in a cellar room, a room of stone, until they thought him tamed. Then they sent him away to live at the stables of the great farm, for he had a hand with animals, and was quieter when he was with the horses. But he quarreled with a stable boy, and turned the poor lad into a lump of dung. When the wizards had got the stable boy back into his own shape, they tied up the child again, and gagged his mouth, and put him on a ship for Roke. They thought maybe the Masters there could tame him."..All rights reserved, which includes the right to reproduce this book

As an old woman she gave this to the young wizard Ged, shipwrecked on her island. Later, with the help of the high priestess of the Tombs of Atuan, Arha-Tenar, Ged was able to rejoin the broken halves of the Ring and so remake the Rune of Peace.
