He looked around at the other occupants of the room. There was the Surface Mission Commander, Mary Lang, the black woman he had seen inside the dome just before the blowout She was sitting on the edge of Lou Prager's cot, her head cradled in her hands. In a way, she was a more shocking sight than Lou. No one who knew her would have thought she could be brought to this limp state of apathy. She had not moved for the last hour..huddled together wishing for a fire and toweled ourselves dry while the polycarpet ran rainbows of both hands, but the muzzle didn't waver. Time enough for that on later flights. We were blinded by our loyalty to the test-pilot philosophy of space flight. We wanted as few scientists as possible and as many astronauts as we could manage. We don't like to think of ourselves as ferry-boat pilots. I think we demonstrated during Apollo that we could handle science jobs as well as anyone. We saw you as a kind of insult, a slap in the face by the scientists in Houston to show us how low our stock has fallen.".."We're in special circumstances, Lucy," Crawford explained. "Sure, I'd be all for it if we were better off. But we can't be sure we can even provide for ourselves, much less a child. I say we can't afford children until we're established.".."Well, you see, Dr. Kolodny, what she believes is that the end of the world is about to happen. Next..Jack gazed out at the moon and sighed.
