The changes that the computers had detected were tiny--the merest beginnings of a trend which, if it continued at the present rate, wouldn't approach anything serious for a month or more. With only another three months to go before the ship reached Chiron there was no cause for alarm since the rest of the pump-group had enough design margin to make up the difference even without the backup. But even so, there was little doubt that Merrick would insist on the primary's being stripped

down to have its bearings reground, alignment rechecked, and rotor rebalanced again. They had been through that routine twice already in the three months that the main drive had been firing. That meant another week of working in near-zero g and klutzing around in heavy-duty protective suits on the wrong side of the stern radiation shield. "Bloody pump," Fallows muttered sourly. "Then you'll help my friend and me?" "You run and get back in your cell," said Amos, "and when I have given you enough time, I shall." "Shh. I'm going out. Go back to sleep. Song?" Now one day in late spring, Brother Hart had gone as usual to the lowland meadows leaving Hinda at home. She had washed and scrubbed the little cottage till it was neat and clean. She had put new straw in then- bedding. But as she stood by the window brushing out her long dark hair, an unfamiliar sound greeted her ears: a loud, harsh calling, neither bird nor jackal nor good grey wolf..at its highest and hottest. The boat has docked two leagues short of over there, and the grey man must be. "I hadn't thought of it that way," Crawford admitted. "You're sure you want me to have this?" Barry asked, incredulous, with the white curlieuc of the sticker dangling from his fingertip. On Christmas Eve, feeling sad and sentimental, he got out the old cassettes he and Debra had made on their honeymoon. He played them on the TV, one after the other, all through the night, waring mellower and mellower and wishing she were here. Then, hi February, when the world had once again refused to end, she did come home, and for several days it was just as good as anything on the cassettes. They even, for a wonder, talked to each other. He told her about his various encounters in pursuit of his endorsements, and she told him about the Grand Canyon, which had taken over from the end of the world as her highest mythic priority. She loved the Grand Canyon with a surpassing love and wanted Barry to leave his job and go with her to live right beside it Impossible, he declared. He'd worked eight years at Citibank and accrued important benefits. He accused her of concealing something. Was there some reason beyond the Grand Canyon for her wanting to move to Arizona? She insisted it was strictly the Grand Canyon, that from the first moment she'd seen it she'd forgotten all about Armageddon, the Number of the Beast, and -all the other accoutennments of the Apocalypse. She couldn't explain: he would have to see it himself. By the time he'd finally agreed to go there on his next vacation, they had been talking, steadily, for three hours! otherwise rather plain face, giving her the look of a Renaissance Madonna and adding nostalgic charm to her loose topknot of copper hair and high-waisted Regency-style dress. "Next time m tell her. I won't lie to her again. So I guess this will all have to stop." The fated encounter took place at Morone's One-Stop Shopping, a mom-and-pop mini-grocery on Sixth Ave. right next to the International Supermarket. Although Morone's charged more for most items, Barry preferred sbdppping there because it offered such a limited and unchallenging range of choices (cold meats, canned goods, beer, Nabisco cookies) that he never felt intimidated and ashamed of his selections at the check-out counter. He hated to cook, but was that any reason he should be made to feel inadequate?
